BASKET BALL.

Palestine Y. M. C. A. vs. State University at Austin.

The Regulars, the local Y. M. C. A. basketball team, will leave tonight for Austin, where they will play the State University team tomorrow afternoon. Our local team has been putting in some hard practice work every night for the last few weeks and is in fine shape for the big game with the college boys. However, the boys are most unfortunate in losing their star player, Mr. Hugh Turner, who played center on the team and was also the captain, he having accepted a position in Houston, leaving yesterday morning. This has made a big change in the line-up of the team right at the last minute, and will be quite a drawback in the playing. The boys had a good hard practice game last night and showed forth some excellent team work.

The game tomorrow will be played on an outdoor court. This will be a new feature to our home team, and may prove to be a disadvantage after the games and practice on the hard

gym floors which the Regulars have become accustomed to.

The boys will return from Austin Thursday morning and resume practice for the Texarkana bunch, whom they will play Saturday night in the local gym.

The line-up for the Regulars for tomorrow's game will be Gilbreath, center; Massey and Richardson, forwards; Morris and Dolson, guards; Manry and Wilborn, substitutes. The team will be under the management of Richardson. Victory for "our boys" we all say.

You can't fool a smoker the second time on the same cigar. If he tries it and does not find it good, he will not try it again. Smokers who have tried Wadsworth Bros.' Chicos find them just what Bratton Drug Co. say they are, "equal in quality to any 10c cigar on the market, with a long Havana filler, burning with a good solid ash and a delicious aroma and flavor."

You get all this for 5c, something you never bought before for less than 10c, and oftentimes you had to pay 15c for it. Try a Wadsworth Bros.' Chico today, and you will adopt it as your favorite and never smoke anything else when you can get one, and kick hard when you can not get one.

Bratton Drug Co. have the sole agency for Wadsworth Bros.' Chicos in Palestine.

WEATHER FORECAST.

For Palestine and vicinity: Tonight and Wednesday fair; slightly warmer tonight. Minimum temperature, 42 degrees; maximum temperature, 54 degrees.

Weather Conditions.

The high pressure area noted yesterday over the lower valley has moved eastward, causing frost over Southern Alabama and Northern Florida, and carried the line of freezing temperature to Southern Alabama. High pressure is general over the entire country—the lowest pressure (30.1 inches) is over the upper Ohio valley. An area of high pressure has appeared over the Dakotas accompanied by temperature 8 to 10 degrees below zero all over the border States. The tendency of this cold is towards the lakes and Ohio valley. The extremes for the entire country in past 24 hours excepting slight snow in the lake region.

Francis L. Patton.

The Rev. Francis L. Patton, D. D., LL. D., president of Princeton Theological Seminary, was born in Bermuda, January 22, 1843. He was educated first at Harwick Academy, Bermuda, and then at University College, Toronto. He studied theology at Knox College, Toronto, and then at Princeton, and was graduated from Princeton Seminary in 1865. After his ordination in the same year he was pastor of several churches in New York and Brooklyn until 1872, when he became a professor in the Theological Seminary of the Northwest, in Chicago. From 1873 to 1876 Dr. Patton edited the Interior, the Presbyterian denominational paper in Chicago. Out of this relation grew the famous "Swing case," the controversy between Dr. Patton and Prof. David Swing, resulting in Prof. Swing's trial for heresy, and, after active prosecution by Dr. Patton, his leaving the church. In 1881 Dr. Patton took a chair at Princeton Theological Seminary. In 1888 he became president of Princeton University, which position he relinquished in 1902 to become president of Princeton Theological Seminary. Dr. Patton was the representative from America to the Pan-Presbyterian council at Edinburgh in 1878, and in the same year he was moderator of the Presbyterian general assembly.

NATURE'S CATARRH CURE.

Sensible and Scientific Way to Cure This Disagreeable Disease.

Nearly everyone suffers at one time or another with catarrh.

The natural way to cure this disagreeable disease is by applying healing medications direct to the diseased spot.

In no other way can this be done as naturally as by the use of Hyomei breathed through the neat pocket inhaler that comes with every outfit.

Put several drops of Hyomei in the inhaler and then for a few minutes, four or five times a day, let the air you breathe come through it. In that way all the air that enters the nasal passages, the throat or the lungs, is filled with Hyomei's healing medication, reaching the most remote air cells of the respiratory organs, destroying all catarrhal germs and soothing and healing the irritated mucous membrane.

A few days' use of Hyomei will show how quickly it relieves all catarrhal conditions, and you will not have to use it long before you find it has effected a complete and lasting cure.

So strong is their faith in the power

of Hyomei to cure catarrhal troubles that with every dollar outfit Bratton Drug Co. give a guarantee to refund the money unless the remedy gives satisfaction. Bratton Drug Co. take all the responsibility and you can not afford to suffer longer with catarrh when an offer like this is made to you.

Should extra bottles of Hyomei be needed they can be obtained for 50c, making this one of the most economical as well as the most reliable remedies for catarrh that is known.
